

Care

Jade Recruitment are now proud to be a part of the world of care, offering an exceptional service by taking into account the needs of each of our individual clients.

- We have a ready supply of temporary candidates who have all been formally interviewed to industry standards, ensuring their background and experience levels are suitable for the work they are required for. All candidates also have at least two references from previous employers within a five year period taken by ourselves
- We have excellent working relationships with nursing and residential homes within a 20 mile radius of Dorking and as such know what is expected from our care workers

Roles we provide:

Care Assistants
Support Workers
Health Care Assistants
Care Workers

CRB and NQV level candidates

Our staff have been fully enhanced CRB and POVA list cleared by us at no extra cost to yourselves. We know the importance of these checks and how critical they are to your industry and as such aim to have all candidates cleared within one month of registering with us.

We also understand the importance of education within the care industry and therefore will only offer you candidates who have appropriate NVQ's and experience. Where possible we provide our candidates with the necessary knowledge they require to take their education further, thereby helping them to help you.

Open Staff Policy

All of our workers will arrive with you with all of their paperwork and in suitable attire. They will bring a photo identification of themselves, as well as a copy of their CRB disclosure and copies of any qualifications they might hold. This means that you have a full guarantee at the start of the shift that the person working for you is completely competent. You may also request to view one of the two references we have received on your worker. We hope that this not only puts your mind at ease, but it also ensures an honest working relationship.
