

# Catering

Having supplied efficient, high quality individuals to hotels, schools, restaurants and other organisations over the past 20 years, we have a good knowledge of what the industry requires. Specifically, our director has significant experience in the hospitality sector.

To match the dynamic and often pressured environment of many businesses in this sector, we:

- Respond to immediate requirements within 15 minutes to let you know who we will be supplying; staff arrive within 1 hour
- Check every week with all our clients to ensure that the temporary member of staff has arrived in time and also the level of satisfaction with their performance

## Roles we provide:

Cooks & Chefs

Silver Service Staff

Plate Waiting Staff

Food Servery Assistants

Bar Staff

Catering Assistants & Kitchen Porters

Domestic Staff

And more! Let us know what you need.

## Silver Service Training

We are committed to providing candidates that have the right skills and knowledge for the job. That's why we took the decision to introduce our own Silver Service training sessions – so we can ensure that candidates are fully aware of the protocols and procedures involved in Silver Service. Candidates will have the confidence and knowledge required to ensure that our clients end the day more than satisfied.

## CRB (Criminal Records Bureau) Checks

Temps who work within the Education and Care sectors are CRB checked as a matter of course. CRB checking takes only a couple of weeks, and ensures that the temporary worker we supply has been fully background checked – which is as important to us as it is to you.
